

## **Is there a size limit for individual emails sent to my account?**

There is a limit of 30MB for email attachments sent to your mailbox, should attachments larger than this be sent to your mailbox the sender will get a bounce back with a message similar to the following: message size (size) exceeds size limit 31457280 of server mail.(yourdomain)

Additionally, no emails will be received once your mailbox exceeds its quota, which by default is 10GB.
